

We're Willard!

Come take a ride with us out Powder Mill Road
We're gonna show you where the school buses go
We'll show you classrooms and playgrounds too
The kids at Willard are waiting for you!

(chorus) We're Willard
Learning every single day
We're Willard
While we work and while we play
We're Willard
We're working all together, you see
We're part of Concord history.

Here at the Willard School, the dots all connect
We know the Planet Earth deserves our respect
And as we show respect for teachers and friends
We make a circle and it never ends.

We're Willard
Learning every single day
We're Willard
While we work and while we play
We're Willard
We're working all together, you see
We're part of Concord history.

Algonquin Indians who farmed around here
Corn, beans, and squash—they planted each year.
We learned a lesson from the way that they'd grow
Planting together is the best way to go.

We're Willard
Learning every single day
We're Willard
While we work and while we play
We're Willard
We're working all together, you see
We're part of Concord history.
